Mr. Connelly,

The WVDEP – Division of Mining and Reclamation grants the exemptions codified in 22-4-29. The entity conducting the quarry operations should contact myself with an overview of the project. We can then make a determination whether or not a quarry permit is needed.

Hello Dustin, the Planning Commission meeting is Monday, December 16 so any additional information you could offer regarding the exemption process would be helpful before then.

-Tom

Mr. Connelly,

Neither myself nor the Philippi office permitting staff have been contacted regarding this proposal. A permit application has not been submit to us.

Thanks,

Tom Connelly

Thank you for the clarification, Dustin. The Commission tabled the item at last night's meeting until the applicant provides comments from the DOH and DEP and a response to geological concerns raised. In addition, the City Solicitor is requesting that my office be notified when an application is filed with the DEP and request the ability to submit comments or questions to your office.

Thank you,

-Tom
