

WHEELING POLICE DEPARTMENT

Shawn Schwertfeger
Chief of Police

January 23, 2019

Mr. Robert Herron
City Manager
City of Wheeling
1500 Chapline Street
Wheeling, WV 26003

Dear Mr. Herron:

Fiscal 2019-20 Budget Submission

I am submitting the FY 2019-20 budget proposal for the Wheeling Police Department. This proposal will not include significant changes to previous budgets except for a few line items and the recommended pay increase for all personnel. I am again recommending a 5% pay increase. Additionally, I will be submitting an internal memorandum with justifications for additional review and action on pay compression and other incentives for Wheeling Police officers. We are currently seven officers down. This is three more vacancies than we had last year at this time. It becomes harder and harder to compete with private industry, federal, and other law enforcement agencies. We must make the largest agency in the region the most desirable to work at as it relates to pay and benefits. Nationwide, law enforcement applicants are dwindling. Our last civil service test was held in October 2018, and we only ended with a list of seven candidates. We will be scheduling another test soon to attempt to fill the vacancies with qualified officers, an unprecedented three months after the last test. I do believe that a radical approach to pay and a multitude of benefits could make that difference.

I am happy to report that our Group A crime stats show a 5% decrease. Specifically in this category, Assaults were down 11%, Robbery was down 33%, Burglaries were down 10%, and reported Sex Offenses were down 27%. Group A offenses that increased included motor vehicle theft, prostitution, and "street-level" drug offenses. Our Group B offenses increased by 17% in 2018. This is a pattern that I believe is reflective of geographic policing efforts. When police resources are deployed in problem areas and in high numbers, Group B offenses tend to increase such as DUI arrests which were up 94% in 2018. In turn, you should see the Group A offenses begin to decline which is reflected in our data. The goal is to stay at it and begin to reduce Group B, while maintaining reductions in Group A offenses. I do believe that with adequate police numbers, improvements in data via our crime analyst, analytical software, a robust community, and business partnerships with fluid communication flow, we will achieve those goals. The disturbing data once again this year is the continual increase in our drug offenses and overdoses. The proactive approach to geo-policing and focusing on high crime areas with the goal of preventing crime will require some additional personnel. With that in mind, I would again be approaching you to increase our overall sworn numbers to be reflected in some of the proactive policing specialized units.

Once again, I am very proud of the continued progress and accomplishments of the Wheeling Police Department and staff during 2018. Three officers were recognized by the National Association of Police Organizations with the TOP COP award for a lifesaving effort. We again recognized multiple officers for awards and commendations including

1500 Chapline Street • Wheeling, West Virginia 26003
Phone: (304) 234-3708 • Fax: (304) 234-3788 • Mobile: (304) 639-9674

Detective Rob Safreed, who was recognized as the officer of the year for 2017. We demonstrated significant gains in making our highways safer by a robust impaired driving enforcement campaign and an increase in traffic citations by 29%, resulting in another reduction of our traffic crashes. Additionally, we continued to see reductions in our false alarms, an initiative a few years in the making but still showing positive results in efficiency. We continued to improve and increase our training opportunities. All supervisory staff completed Incident Command Training, we included a new program by training an officer in Rape Aggression Defense (RAD) to be implemented in the community, and we were asked by the State to put together a model of our Crisis Intervention Training to be deployed to law enforcement throughout the state. During 2018 and late in 2017, a local foundation donated over \$70,000, which made several improvements to equipment and our overall mission. Finally, in 2018 we started a new Police Explorer Program (WPD POST 1) which will begin this month.

Looking ahead to 2019, we aim to continue our training improvements, to roll out the Police Explorer Program, and have been selected as the host agency in the Northern District of WV in a Department of Justice initiative known as Project Safe Neighborhoods, which will focus on gun violence in our area. Additionally, we hope to see the crime analysis software put to good use which will have a nice community component built in.

Recurrent and rising costs are driving my requests this year related to the operating budget of the Wheeling Police Department. Due to the aforementioned foundation donation, we have been put in a position to finally purchase the electronic time reporting and scheduling software. However, there is an annual cost to such a program, in this case a projected \$3,000 annual cost. Additionally, we recently began participating in LeadsOnline with a \$4,200 annual cost, and Police One Academy, an online training program we use at an annual cost of \$3,024. Our issued cellular phones are six years old and have not been upgraded and are beginning to malfunction. We will be looking to upgrade to the most recent models, which have outgrown us by four or five generations of iPhones. These new programs, along with the continual and sometimes rising costs of our RMS system, computer, server programs, etc., have caused me to request an additional \$15,000 be included in this budget with Communications Maintenance.

A second line item with a proposed increase will be Specialization line-item. Currently, this line-item is budgeted for \$8,000. I am proposing that this line item be increased to \$15,000. Over the past several years, the WPD has specialized with multiple collateral teams, units, and programs. The WPD Honor Guard, Crisis Negotiations Team, Public Information, Driving Team, and Taser Program are just a few of the justifications for this increase. This line item has been fully expended at the midway point of our current budget. Although these teams, units, and programs are usually considered "part-time," they are very important components of police service and need to be funded with that in mind.

Again, due to rising costs, I am proposing a slight increase to the Clothing Allowance line-item. This line-item is used to fund the recurring equipment needs of the individual officers. New boots, uniforms, vest carriers, etc., all contribute to this requested increase. Officers

Robert Herron
Page 3
January 23, 2019

currently have \$400 to utilize in personal equipment upgrades. This increase will provide them some additional funding to meet these needs.

Those three line-items will be the only proposed increases in this year's budget proposal other than the proposed 5% increase in pay reflected in the Personnel and Benefits Section of the budget.

This budget proposal will contain many Capital Outlays. A new police facility, a "take-home" car program, a transport van (fleet need), a garage/bay facility, Trikke scooters, surveillance cameras, and fencing for special events.

You are fully aware of the needs of the Wheeling Police department related to its current facility and spatial shortcomings. Simply said, a good agency could become a great one with the proper facilities. I am very appreciative of the efforts by you and City Council to seek funding for a new public safety facility. We must all work together to continue to seek a way to secure this much-needed transition to a 21st century, professional work space and all that comes along with it.

The second capital outlay would be a "Take-Home" car program. Currently, over 50% of the officers in this department, mostly younger patrol officers, DO NOT have a police vehicle assigned to them. First and foremost, this is a unique, but significant, recruitment and retention tool. I guarantee that younger officers take that into consideration while looking at our department as a possible employer and definitely as it relates to staying here. I would submit it is more than that. A take-home car program provides extreme visibility improvements, enhances emergency response times, and would undoubtedly save the City money in the long term. The vehicles would last longer, with less wear, opposed to the current system of running them 24 hours per day. Many agencies in the area provide a take-home car to their law enforcement employees for the reasons stated above. Recently completed analysis projected that with an investment of 1.5 million dollars, the City could purchase and have outfitted the number of police vehicles to outfit the remainder of the department. I strongly encourage we give this consideration.

I am proposing the Wheeling Police Department purchase a police transport van. This piece of equipment would be designed to transport multiple arrests at one time, provide safe transport to and from the regional jail and court (when needed), and provide a safe transport for combative prisoners. The ideal usage for this equipment would be at our many large events throughout the summer/fall. Currently at these events, many of which serve alcohol, we have to stage several patrol cars in the area to use in the event of an arrest. With a van, you have the capability to house multiple arrests, safely and professionally. I could cite many occurrences where this piece of equipment would have been useful. The cost estimate on this fleet need is \$69,261 fully outfitted.

Robert Herron
Page 4
January 23, 2019

Reverting to our facility needs and the lack of space available to us, I am proposing that the City of Wheeling Police Department construct a metal garage/bay structure at the current location of the former dog pound. This structure could house vehicles and equipment, securely and safely. For example, our new SWAT vehicle is currently being built. When completed, there is no proper space to secure it safely, considering the equipment that will be housed inside it. Currently, our motorcycles, Spyders, and speed signs are kept at varying locations. This equipment needs electricity for batteries to keep operational. Some equipment is actually kept at the home of Wheeling Police officers. This is an undue burden for the officers. The WPD currently has two Conex boxes (metal storage trailers) at that location and are requesting a new garage facility be constructed at the site. The current building located there is in a state of disrepair and would need razed.

Some additional Capital Outlays include Trikke scooters, related to an initiative on our Strategic Plan involving downtown police presence and patrols, additional surveillance cameras to replace old or malfunctioning cameras at locations downtown or in high crime areas and finally bicycle fencing and trailers for hauling. This fencing is utilized for crowd control purposes and has been rented or borrowed in past events such as the visits of the President and Vice President to Wheeling last year.

I am enclosing our Strategic Plan (Goals and Objectives), the Line-Item Budget Request Form, the Capital Outlay Schedule, the Program Justification Form, and other supporting documents. I am looking forward to meeting with you to examine and discuss our budget proposal further. Please do not hesitate to contact me should you have any questions or need additional information prior to our meeting.

Sincerely,

Shawn Schwertfeger
Chief of Police

Enclosures

Wheeling Police Department
Strategic Plan 2019

1. Reduce Crime and the Enhance Public Safety

- Crime Free Multi-Housing Program (P-4) -- Chief Schwertfeger
- Transport Van (P-2) -- Sergeant Noice/Grants
- Expand Traffic Unit (P-4) -- Chief Schwertfeger
- Reduce motor vehicle accidents within the city by 20% during 2019
 - Identify location and causation factors
 - Enforcement blitz
 - Education campaign
 - Enhance traffic unit
 - **Increased overall enforcement of traffic laws**
 - **Increased enforcement efforts of impaired driving**
- Reduction in crime/ Quality of Life issues in Downtown/Market Street (P-1)
 - Initiative) Creation of a Business Coalition
 - Initiative) Enforcement Operations
- Reduction in Panhandling (P-3)
- Enhancement of Vicious Dog Ordinance/Program (P-3)
- **Gun Violence Reduction Program**

2. Enhance Community Outreach

- Crisis Intervention Training (P-1) – Schwertfeger/Miller/Kepreos -- COMPLETED
- Social Media for WPD (P-4) -- COMPLETED
- Neighborhood Resource Unit (P-4) -- Chief Schwertfeger
- Creation and Implementation of a Police Explorer Program (P-2) -- Chief Schwertfeger
- **POPS with COPS (Ziegenfelder Initiative)**
- **Interdepartmental Diversity Training**
- **Civil Rights Training**
- **Bicycle Rodeos**
- **Homeless Outreach**

3. Increase Efficiency

- False Alarm Program (P-1) -- COMPLETED
- Crime Analyst (P-4) – Chief Schwertfeger -- COMPLETED
- Public Information Officer (P-4) -- COMPLETED
- New Police Department Facility (P-3) -- Chief Schwertfeger
- Specialized Vehicles (SWAT, CNT) (P-2) -- Schwertfeger/Noice/Grants
IN PROGRESS
- Reduction in number of outstanding warrants held by WPD (P-2)
 - **Warrant Reduction Operation**

- Tow/ Impound protocol and facilities (P-4) IN PROGRESS
- Online Reporting Program (P-3) No assignment
- **Domestic Violence Training**

4. Emergency Preparedness

- Regional Command Vehicle Operations (P-2) -- Sergeant Roxby
- Police Firing Range/Training Facility (P-1) -- Lieutenant Noice
- Drivers Training Team -- COMPLETED
- Explosive Ordinance Team (P-4) -- Chief Schwertfeger/Officer Pugh
- Creation of a CIVIL DISTURBANCE UNIT (P-3) -- No Assignment
- Critical Incident Training Enhancement (P-1)
 - Quarterly "Tabletop Exercises" that involve local businesses and multiple facets of the WPD Emergency Response -- IN PROGRESS
- **ICS Training for All supervisory staff**

5. Occupational Safety and Wellness

- Wellness Program (P-2) -- No assignment
- Internal Facility/ Security (P-1) -- Sergeant McKenzie
 - Initiative) Window film upgrades
 - Initiative) New door in work area
 - Initiative) Issued identification for VISITORS
 - Initiative) Improvements to work area
- Police Chaplain Program (P-5) -- No assignment
- Acquisition of Gas Masks (P-4) -- IN PROGRESS

Wheeling Police Department FY 2019-20 Budget Increase Justification

Proposed Increases

Personnel/Wages (Various Line-Items)

The Wheeling Police Department remains allocated at 72 sworn positions and 14 civilian positions. In our sworn positions, we have been approved one over hire to move our allocation to 73. With that number, we have vacancies as of today. We are currently three sworn positions lower than we were last year at this time. As previously mentioned, this profession is attracting fewer and fewer applicants for a variety of reasons. Locally, I believe we are competing with federal and some local law enforcement agencies. In order to provide the citizens of Wheeling with the most proficient police service, we need to be fully staffed and potentially have additional officers. This would allow us to be more proactive.

In addition to the 5% pay increase, I believe it is time to look at other incentives for the reasons stated above. A Take-Home Car Program is a huge incentive as outlined in my budget proposal. Additionally, we need to look at ways to remove the pay compression between pay grades here. There is not much incentive for officers to move up and to take on the responsibility of supervision. We need to also search for ways to make our benefits package more attractive as well as incentives for longevity, incentives for collateral participation (skills proficiency), and possibly incentives for education or recognizing various degrees of higher education.

Communications Maintenance (4700.20.2115)

As outlined in my proposal, I am recommending a \$15,000 increase in the Communications Maintenance line-item. The recurring costs of some of our new programs and software dictate this increase. Annual costs in the LeadsOnline Program, our new electronic pay reporting software, our crime analyst software, Police One online training capability, annual warranties on the new Live Scan system, and many additional and rising costs for our RMS and Office 365 Programs require this increase. We wish to provide the most professional product not only to our customers or citizens but also to our employees as well, and this increase goes a long way to achieving that.

**FY 2019-20 Program Justification
Continued**

Specialization (4700.20.3150)

This line-item was created a few years ago at my request. The WPD has continued to specialize with specific units that bring a degree of specialization to help support our mission. Some of the units that are assisted with this line-item include Honor Guard, Crash Reconstruction Team, Crisis Negotiations Team, Background/Recruitment Team, and NAV's. With an identified need and creation of some additional specialized units/teams, we now need to support the Civil Disturbance Unit, Drivers Training Team, and Defensive Tactics. Within the Defensive Tactics responsibilities, we will be incorporating Taser costs/needs into this line item. With the addition of these units and the associated costs that are projected, I am requesting an increase in this line-item to \$15,000, an increase of \$7,000.

Clothing Allowance (4700.30.2112)

I am requesting an increase of \$5,000 in this line item. Due to the rise in recurring costs for personal equipment, I am seeking to increase the amount of uniform allowance provided to Wheeling Police Officers. Boots, uniforms and other personal equipment that is approved to be purchased by WPD officers through their uniform allowance have increased in cost. The current \$400 does not go very far, and I am proposing a slight increase in that figure.

No additional line-item changes are being proposed in this budget submission.

December 5, 2017

Sgt. Gregg McKenzie
Wheeling Police Department
1500 Chapline St. Ste 101
Wheeling, WV 26003

Dear Sgt. McKenzie,

This proposal is written to give you the information you may need in order to join this national network comprised of thousands of law enforcement agencies and reporting businesses.

By now, you probably know that the LeadsOnline system is effective and can help address many of the problems your investigators are currently facing. Yes, I know you'll probably flip to the pricing first. After you do that, please go back and read about why so many law enforcement agencies find LeadsOnline to be an indispensable resource.

New Part 1 cases are coming in as you read this, so let's take the steps today to put LeadsOnline in the hands of your investigators.

I am available to answer any questions or provide additional information as needed. Also, I am available to give a demo to command staff or train individual investigators.

Sincerely,

Amberly Harper
Account Executive
972-331-6783

Why would anyone search pawn tickets?

They may be filed in a drawer full of paper, in an inbox of daily emails to sift through, on a spreadsheet that someone has spent hours preparing, in a local RMS database or in piles. Even if someone else in the department or another law enforcement agency does it for you, it's tedious work to search through thousands of pawn tickets. You've tried to decipher the handwriting. You've muttered the serial numbers aloud repeatedly. You've neatly stacked them by name or item description. Hopefully you weren't looking for a stolen ring!

There's a reason you go to so much effort despite long odds: *Because one of those tickets could solve your case.*

What if you could search "a box" of more than 1 Billion tickets in less than one second, and never miss one? What if the box could search itself over and over as new tickets come in and alert investigators on hits relevant to their cases?

Are you accountable, but dependent on someone else?

Even if you have an electronic system such as an RMS pawn module or local pawn database, it still has many of the limitations of an old box of paper. If your jurisdiction doesn't have pawnshops, you're dependent on another agency's box. You may even find that your investigators call other agencies who use LeadsOnline, but that isn't a long-term solution.

Do crime victims expect personalized service?

Has the latest Hollywood cop-drama caused citizens to think that detectives arrive and perform a full forensic sweep for every broken car window? Or is there a sense in the community that every reasonable step should be taken to make this a safe place to live, work and play?

Most people do not experience violent crime, but everyone knows what it feels like to lose something important. With LeadsOnline, you can confidently assure any crime victim that your department is serious about its mission. You're working their case with the exact same system that the largest and most respected law enforcement agencies in America are using every day, including NYPD, Chicago PD, Dallas PD and 4,000 others.

Caseloads were enormous, and then heroin hit us.

How many Part 1 crime reports does your department receive per investigator? How many of those involve property? How many cannot be worked due to limited resources?

Just imagine what it would be like if those cases could be worked quickly, automatically and repeatedly. Would a force multiplier like that give your team a fighting chance?

Night and day, LeadsOnline is running serial numbers from your current and past cases against hundreds of thousands of items coming in from reporting businesses. Hits from anywhere in the country come back to your department. The Rolex taken in the home invasion last week may have been sold in the next county on the day of the crime. The gun linked to a homicide one year ago could be sold in Las Vegas. Today could be the day you get a break.

Are you only checking pawnshops?

Now criminals sell to scrap dealers, jewelry buyers, game stores, electronics stores and online, so even if you have the pawnshops covered, there are big gaps. No problem - LeadsOnline handles reporting by all of them without any change in the law.

Is out-of-state out of reach?

When the suspect leaves your jurisdiction, you must guess where he might have gone. Law enforcement agencies in 47 states plus Washington D.C. use LeadsOnline. There are thousands of them, and they're all connected. See the cases they're solving here: <https://www.leadsonline.com/main/success/all-stories.php#violent-crime>

If it's two months behind, does it help at all with today's cases?

Here's how it gets to be two months behind: A data entry professional may be able to enter approximately 40-50 items per hour. They have other job duties. Calls to investigators and pawnshops take up the day. The number of transactions grows over time. Even when files are sent via email, they must be formatted and copied into your database. What's the cost of that work? Can it ever be current? What's the value of information after the case file is closed? Do the businesses wait two months before selling or scrapping property they receive?

Issues, Risks and Questions Command Staff Will Ask***How can we implement LeadsOnline before next year's budget?***

No department has "extra money". Here are some ways other agencies have implemented LeadsOnline immediately – without waiting for the new budget cycle:

- Take an objective look at the effectiveness of your current system. What crimes have been solved in the past two weeks as a direct result? How many businesses are reporting? How far behind are the tickets from getting into a useable/searchable place? How many investigators actually use it? Is it slow? Is it down?
- If the department runs on a Comp Stat-style management process, does transaction information have value if it's more than two weeks old?
- Take an objective look at the cost of the current system. Considering all factors, what does it really cost your department? (hint: it isn't "free")
- Estimate the number of Part 1 Crimes that will be reported between now and the new fiscal year. Then estimate the cost of the manpower that will be wasted handling pawn tickets and working cases without LeadsOnline.
- Now that you've seen some positive results in your cases, consider how many additional crimes these individuals would have continued to commit had the crime not been solved so quickly and decisively.
- Internal systems are never without cost. Consider the cost of manually entering tickets or formatting data and managing files. There may also be IT hours required to maintain computers, support databases, produce reports, update security, replace hardware, fix code, provision users etc. that can be utilized for other department priorities.
- LeadsOnline cases can often be linked to illegal drugs, and many agencies use drug funds to bridge the gap until the next budget cycle. Asset forfeiture funds are

designated to support information technology, investigations and operations such as LeadsOnline that may result in further seizures and forfeitures, and to develop and support community based programs, such as ReportIt, reportit.leadsonline.com.

- Elected officials tend to be eager to implement solutions to problems faced by their constituents. Finance departments are quick to grasp the cost/benefit equation when you explain the force-multiplying effect of LeadsOnline.

What if our ordinance is out of date? Do we have to change it?

LeadsOnline works with the laws you already have. Most jurisdictions require reporting in a manner specified by law enforcement. Simply tell the businesses you would like them to report via LeadsOnline. They will send the same information they provide today and access will continue to be limited to law enforcement personnel. LeadsOnline makes reporting easy.

Businesses use different formats and abbreviations

Right. Think about your other internal records systems. They're designed to handle consistent data from standard, agency-owned forms and formats. Commercial transaction records are different because they come from imperfect non-standard sources. There are hundreds of variations, and LeadsOnline handles them, giving you the hit even when information is reported differently than you would expect.

How can we know that businesses are providing all the required information?

LeadsOnline also comes with the compliance management tools to make sure businesses are following the rules.

Are you sure this will work better than what we have now?

You probably know the answer to that one. Add a few more investigators to the free 30-day trial and keep track of all the ways it helps you save time and solve crimes.

What other agencies are using LeadsOnline?

These days, it's easy to find out how other agencies are using LeadsOnline to make investigations easier and more effective. Here are three easy ways to find one of your peers to speak with. They may not be able to answer specific questions about features, but they'll give you a general sense for the level of service and value experienced by our clients.

1. I will send names and contact information for investigators, CID leaders and Command Staff who were once in your shoes and now use LeadsOnline as their go-to resource.
2. You can browse more than 1,000 success stories at www.leadsonline.com/success and contact any of the agencies you recognize.
3. You can send a message to your FBINAA forum or other group of law enforcement leaders. I believe you'll get a positive response.

LeadsOnline Features and Benefits

Hiring LeadsOnline means you are joining thousands of law enforcement agencies across America who are multiplying their resources and solving violent crimes and property crimes that were once unsolvable.

Here are some of the features that make LeadsOnline a game-changer for your investigations:

Reporting System for Businesses

Easy Online Reporting System for your Pawn/Secondhand Stores. *(PowerPlus incl. Scrap Metal Businesses)* Pawnshops, gold buyers, game stores, phone kiosks and other secondhand businesses can easily report transactions via LeadsOnline. In most cases, they will simply send a file each day from the system they already use in their store, or connect their software with LeadsOnline in real time via a web service. Businesses not using software may use LeadsOnline TicketAssistant to submit transaction information.

Reporting businesses simply access their respective LeadsOnline services via an encrypted password-protected connection from their browser. LeadsOnline is free for reporting businesses.

Reporting System Features for Businesses:

1. Supports any point of sale software capable of sending delimited information required by law so that businesses do not have to enter information twice.
2. Supports reporting in real time as transactions take place, or in daily batch upload.
3. Web-based and TLS-encrypted. Does not require installation onto user's computers.
4. Accessible via multiple users' computers simultaneously.
5. May be displayed in English, Spanish and in other languages.
6. Electronic police holds, business acknowledgement and online release requests.
7. No-buy alerts may be set to notify the business before completing a transaction.
8. Compatible with ID scanners used by the business to scan information directly from the drivers' license where permitted by law.
9. Supports the collection of digital fingerprints using the business' fingerprint scanner.
10. Provides the option to record condition of the item or metal, such as new, used, good condition, burned, etc.
11. Provides the option to document engraved text, owner applied numbers and other information.
12. Provides the option to upload photos of property, sellers, identification cards, and scanned documents of ownership using the business' software and devices. Space on the business' hard drive is freed of such large files and large quantities of images. Scanning and printing duplicates is eliminated, saving time and ink.
13. Provides the ability to upload seller's electronic signatures.
14. View past transactions and edit tickets. Edits are logged and pre-edit information remains searchable.

15. Mandatory/required fields are set according to local law and can be customized by your agency.
16. Warnings for incomplete or incorrect tickets can be seen by the business and by agency personnel. Checking on what an employee entered or conducting an inspection of a business becomes a breeze.

Transaction Monitor – Inspect What You Expect

Are the businesses in your jurisdiction reporting? Are model numbers entered in the place of serial numbers? Use Transaction Monitor to easily check compliance of businesses in your jurisdiction. Customize the system for what is required in your jurisdiction by setting fields as mandatory according to your reporting requirements. See warnings when reports are submitted with missing information or common data entry errors.

Advanced Investigation System***NCIC hits – Improve Clearance Rates the Easy Way***

Remember when someone had to take every pawn slip in the box and enter the serial number to see if it's listed as stolen in NCIC? But what if it is reported on the day after they checked? What if your stolen item is sold in a jurisdiction that doesn't even check?

With LeadsOnline, you'll get hits on your stolen items regardless of where they're sold. Comparisons will be done daily, before and after the report, and ongoing. The other good news is that you don't have to check every ticket – just those that have a serial number match. Minutes a day brings big success.

Search Nationwide

You'll be surprised how far your criminals will go. Investigators from Paducah, Kentucky solved a double homicide when the killer from Jacksonville, Florida sold a \$10 Harley Davidson wallet in Chicago. LeadsOnline can find your crook in any of the 50 states in less than one second.

Search Pawnshops, Secondhand Stores, Kiosks, Gold Buyers, Game Stores, Music Stores...

(PowerPlus agencies may also search scrap metal transactions)

Years ago, it was common to simply check all the pawnshops. These days, the transaction for your case could show up in a wide range of businesses that buy and/or exchange merchandise received from the public. LeadsOnline allows you to search for your suspects and stolen property across all business types with one click.

Visualize Results of any Search Displayed on an Interactive Map *(PowerPlus)*

LeadsOnline mapping features allows law enforcement users to map any search result for further analysis and presentation to command staff, prosecutors and juries. Zoom in to investigate a particular neighborhood. Focus on a particular village or township versus seeing an entire city.

Automated Saved Search to Multiply Your Investigations Unit Resources

What if you had a few extra detectives and crime analysts to keep working your cases even after you've closed the file? With LeadsOnline, you can run your search, click "Save", and go work on other cases. We'll send you automated alerts via email when we get a hit. Those are exciting emails to receive.

Advanced Property Coding

The clear majority of transaction reports come from software owned by the reporting business. There will be different codes and proprietary dropdowns for describing customers or property, or no dropdowns.

In your box of tickets, you may have seen Fender Stratocaster described as a "stringed instrument", a set of Pings described as "Golf sticks", or an iPhone 5 described "Cellular telephone white 16 megapixels A1428".

With LeadsOnline, you search for property in plain English and get hits even if the description is less than plain. Our proprietary systems interpret, standardize and search vast amounts of information to unscramble the eggs for you. This is a huge benefit resulting from the analysis of hundreds of millions of transactions over many years.

Identify suspects when addresses and other identifiers change

Investigators are working with imperfect suspect information provided by crime victims, witnesses and others. People entering the transactions will have good days and bad days, good eyesight and poor eyesight. With LeadsOnline's advanced suspect identification system, investigators will often get hits even when identifiers have been entered incorrectly or are missing completely.

Suspect Associates

Find associates of your suspects who may also be involved in the case.

Case Search (PowerPlus)

Enter multiple items from the same case or from several related cases and find individuals who have sold some of the items.

Batch Phone Search (PowerPlus)

Use your call detail record spreadsheet or phone forensics extract to find property sold by accomplices. This is a game-changer for investigators.

Batch Upload Suspect Lists (PowerPlus)

Upload lists of suspects as Persons of Interest to receive alerts when these individuals sell property or are identified as a suspect by another agency. You also have the option of making limited information available to alert reporting businesses. Agencies use this to caution businesses when individuals are prohibited by law from selling, or when the suspect has a history of selling fake gold.

Batch Upload Stolen Property Lists (PowerPlus)

Upload lists of stolen property with serial numbers in batch when the items are too low in value to meet NCIC listing requirements.

Arrest Records and Booking Photos

LeadsOnline provides the ability for agencies to add booking photos individually, in batch or via an automated recurring feed to provide additional information for investigations.

Repeated Transactions to Catch the Ones Who Just Don't Stop

The factory believes they have employee theft. There are no suspects and no serial numbers. Search LeadsOnline to find the girlfriend who sold two dozen of those widgets last week.

Unlimited Craigslist Searches from the Same Screen at Zero Additional Cost (PowerPlus)

LeadsOnline public/classified ads search allows for expedited searching sites such as Craigslist from within the LeadsOnline system and at no additional cost.

Automated Hits from Other Stolen Property Databases

LeadsOnline provides automated hits on property reported stolen by Absolute Software (LoJack for Laptops), Stolen Bike Index and ArtLoss Registry for stolen watches. Others are added upon request.

Hits are fully automated, and case information is fully integrated into the system. Investigators in the jurisdiction where the crime took place are notified according to system settings and are provided with instructions on how to contact the list provider for more about the case. LeadsOnline does not provide transaction information to non-law enforcement entities.

eBay – Find the Name and Contact Information of an eBay Seller Without a Subpoena

Only LeadsOnline provides the ability for law enforcement investigators to locate seller ID information and listing and sales history on eBay members involved in criminal activity.

<http://pages.ebay.com/securitycenter/lawenforcementcenter.html> Certainly not the same information you can find on the public eBay site.

Images. Pictures of the Property, Sellers, Vehicles, Fingerprints and More

LeadsOnline handles any images required to be reported by businesses. Compare property photos to photos in the case file. Use images to confirm the suspect and the ID number.

Search for Suspects and Stolen Property in Ways That are Impossible with the Box of Pawn Tickets

Searches are unlimited, so run it several ways. Search based on combinations of name, DOB, ID number, address, phone, make, model, serial number, IMEI number, owner applied number, type of items (i.e. rings, necklace), and any words used to describe the article you're looking for. You can also search by VIN or license plates as reported by scrap metal businesses. Use your search history to find your way back from the rabbit trail.

Statement Analyzer – Don't be Deceived

Mark McClish is a 26-year veteran of federal law enforcement who has served as an outside expert for several high-profile criminal cases and spent nine years teaching interviewing techniques at the U.S. Marshals Service Training Academy. His books of [Don't Be Deceived](#) and [I Know You Are Lying](#) detail his research on Statement Analysis®.

McClish's "statement analysis" techniques are coded into the "Statement Analyzer" section of the site, providing guidance on words and phrases in a statement that may indicate deception.

Case Management***Electronic Police Hold Notification System***

Use the electronic police hold notification system to keep track of all the items your agency has placed on police holds during investigations. Forms are configurable and can be delivered, acknowledged and released electronically or printed and delivered in-person.

NCIC Hit Filing System

Manage your stolen property hits using customized folders for easy categorization and follow up.

Message Inbox

Communicate with businesses regarding BOLOs or reporting expectations. Daily statistics including saved search hits, reporting status of businesses and other metrics are available to each user on a daily basis.

Getting it Right from the Start: Implementation and Ongoing Training and Support***Unlimited Users. Unlimited Searches. Unlimited Support. Unlimited Cases. Unlimited Clearance.***

Add all the detectives and crime analysts in the department to work your cases via LeadsOnline. It's like the Endless Shrimp Buffet. All you can eat. Just don't share your plate.

Migrate the Transactions from Your Old System into LeadsOnline

LeadsOnline will migrate the transactions from your old database into LeadsOnline so your investigators need only search one place. Oh, and with our advanced system analyzing the old data, you're likely to solve some cold cases in the process.

Free training for All Users from Your Agency and Your Reporting Businesses

Our job is to make your job easier, and that begins when law enforcement and reporting business users register for an account. Simply click the "[Register](#)" button on our website and complete the form. Our team will contact the investigator or business user to provide a brief and informative overview so that they can be successful from day one. We know that people change jobs, so there is no additional cost for training additional agency or business users.

Ongoing Support for All Users from Your Agency and Your Reporting Businesses

Some companies don't want you to call them, but we do. We put our toll-free number and a message/support link on every page in our system and answer the phone when you call. Any user from your agency and any user from your reporting businesses can call or send a request for assistance with non-critical issues, training and general assistance Monday through Friday 7:30 AM – 5:30 PM Central. If we miss a message or call for any reason, we respond within 4 business hours.

Community Policing***ReportIt – Property Inventory System for Your Residents at No Cost***

Wouldn't it be nice to have complete information and a photo of the property owned by the victim on an incident report? With [LeadsOnline ReportIt](#), your residents will be able to store serial numbers, images, and receipts for record recovery in the event of loss. We'll provide media materials for an easy public service announcement encouraging citizens to record those serial numbers.

Inter-agency communication***Persons of Interest Inter-Agency Communications System***

This alone is a good reason to join the LeadsOnline network. Benefit from suspect information and investigator contacts from more than 4,000 law enforcement agencies using LeadsOnline. Upload lists of criminals and receive real time alerts when these individuals sell property or are identified as a suspect by another agency. Suspects from other agencies will appear when they're active in your community. Share information with other investigators for more success in your cases.

Suspect Summary Reports

View the complete transaction history for a suspect. See variations on the suspect's identity. Find accomplices your suspect may be working with. See booking photos and images from transaction records. Review notes from investigators from your agency and thousands of others. All on one report.

Behind the scenes: security, service levels and system compliance***Audited Security***

We invest in ever-evolving information security. Access to data in LeadsOnline is restricted to law enforcement agencies and is secured using administrative, technical and physical safeguards as set forth in applicable law, including the GLBA. LeadsOnline submits to a rigorous annual SOC 2 Type 2 audit for security and confidentiality.

Always-on

We keep it running fast for you, 24x7x365. System availability is maintained to at least 99.9%. Search times are sub-second. There's no equipment for you to buy or keep up to date.

ADA Compliant

Your agency may have requirements regarding accessibility, primarily for people with disabilities. LeadsOnline conforms Web Content Accessibility Guidelines (WCAG) 2.0.

Cross-browser Compatible

LeadsOnline maintains compatibility with current, security-supported versions of all major browsers.

Mobile-friendly

If your agency's mobile device policy allows, investigators can use LeadsOnline even when away from the desk. Look something up during a meeting with a reporting business. Search LeadsOnline while following up on a lead, run a serial number while standing in a store, or look up a transaction when you receive a LeadsOnline hit alert.

Pricing and terms presented will expire 45 days from date of proposal. A formal written Agency Agreement executed by both parties is required, the terms of which will supersede all prior communications and understandings.

MorphoTrak's on-going commitment to customer satisfaction and the delivery of the highest level of support in the industry is demonstrated by our placing resources **in the field** near the customer to provide on-site customer support.

Our standard warranty is 1 Year on-site for both parts and labor. Should Wheeling Police Department report a problem, MorphoTrak will dispatch a MorphoTrak Representative to go on-site to resolve the problem as opposed to other vendors who send a "box with a replacement part". We send a highly trained support representative to provide problem resolution. This ensures that Wheeling Police Department staff members are not burdened with the added task of "parts replacement".

Solution Description and Pricing

MorphoTrak proposes the equipment and services described in Tables 1-2.

TRIKKE™ PROFESSIONAL MOBILITY

GENERAL SPECS

DEFENDER

3-wheel drive system for balanced torque, power delivery and drivability.

48V/1000Wh electric system
2000W peak power.

Cambering frame for unsurpassed stability and control.

Foldable frame for storage and transport.

Rugged dual stepping decks - 12" (30cm) tall for improved visibility and command.

Full suspension frame – air shocks on back for comfort, hydro shocks on front for control.

Air filled heavy-duty tires with alloy rim.

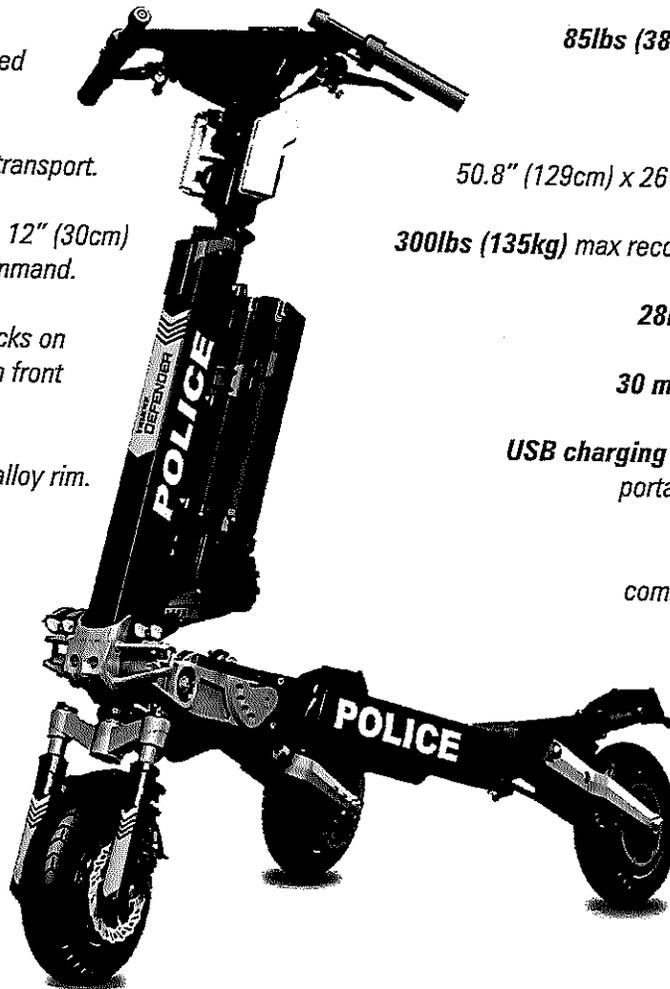

Hydraulic disc brake on all 3 wheels.

Regenerative electric braking harvesting energy back to the battery.

Integrated lighting – for great visibility (brake lights, turn, warning/flashing, siren, powerful 4000 lumen LED headlights).

Adjustable torque level
5 levels of power – adapt to the riding conditions.

LCD interface display
time, speed, power selection, battery level, trip, odo, diagnostics, programmable.

Quick-swap high capacity 48V-21Ah Li-ion battery (Panasonic cells) – for continuous use and instant power.

Full battery recharge in 4 hours.

85lbs (38kg) total vehicle weight with battery.

Dimension:
50.8" (129cm) x 26" (66cm) x 51.4" (130cm).

300lbs (135kg) max recommended rider's weight.

28mph (45km/h) top speed.

30 miles (48km) riding range.

USB charging port at handle, to power portable phones and devices.

Reflective stickers for communication and visibility.

Ergonomic and comfortable ride stance for long hours shift.

Simple construction, reliable for continuous use, easy to maintain.

Can operate in mixed terrain and rugged surfaces, dirt paths, lawn, sand, hilly areas.

Narrow path footprint – shoulder width for escalators, through doors, crowd.

Quiet, clean operation for outdoors and indoors.

info@trikke.com

TRIKKE DEFENDER

STANDARD COMMERCIAL WARRANTY

Trikke Tech warrants this product (including all components) against defects in material or workmanship as follows:

Frame - 5 years Limited Warranty

Trikke Tech electric vehicle frames include a 5 year warranty covering geometry defect structural failure. Trikke Tech reserves the right to replace individual parts or the whole frame. Individual parts may not match the original frame color. Failure to originate by misuse, accidents or abuse are excluded.

Other components are warranted for 24 months. In the event of a defective or faulty part, Trikke Tech will ship the replacement part free of charge and Customer will be responsible for performing the replacement. Exclusions: parts subject to normal wear and tear. Brake lines, brake pads, tires, inner tubes, bearings and trim components will be replaced for claims within the first 30 days of purchase. These parts are not covered by any additional warranty.

Lithium-ion Battery - 2 years Limited Warranty

Lithium-ion batteries originally installed on a Trikke electric vehicle or a replacement battery purchased from Trikke Tech, its distributors or authorized dealers are warranted for 2 years from the original purchase, with full replacement within the first 45 days, and partial (pro rate) replacement after the initial 45 days of use. A suspect battery must be shipped to Trikke Tech for warranty in proper DG (Dangerous Goods) packaging, the Customer being responsible for shipping and costs. Trikke Tech will then check the battery and either repair or replace it. The battery will be returned to Customer at Trikke's expense. Pro-rata replacement takes into consideration the full number of months passed since the purchase date and divides the base retail price of a new battery by 24 (twenty-four). If a new battery is required, Customer will be expected to pay 1/24 of the retail cost of the battery for every month of use (if after 45 days of use). Purchases of replacement battery under pro-rata warranty must be directly from Trikke Tech. The new battery will be warranted with a new term of 24 months under the same conditions described above. Important facts about the aging of lithium-ion batteries: The current technology of lithium-ion batteries presents a natural degradation (aging, loss of capacity) even if not in use. The level of degradation will depend on factors like discharge current (fast or low riding speed setting), temperature of operation/storage and the number of cycles of discharge. Trikke Panasonic/Samsung batteries should retain a minimum of 70% of the original capacity 500 recharges if operated at economic speed, at temperatures ranging

between 50-100F.

Exclusions: Damages to the battery caused by short circuit, moisture, impact, perforation, abuse or marks of tampering with the battery pack will void the above warranty. Batteries kept discharged for long periods of time may not recover working capacity and will be permanently damaged – failure to keep the proper charge level of battery will void the warranty.

Electrical Components - 2 years Limited Warranty

Electrical components, including motor, electronic controller, throttle and associated parts (excluding the battery) carry a 2 year warranty from the original purchase date. Failure originated by water, misuse, accidents or abuse are excluded. Warranty is limited to the replacement of the part. Defective parts must be shipped to Trikke Tech or presented to an authorized service center for analysis prior to replacement.

LIMITATIONS ON WARRANTY THE ABOVE WARRANTY IS THE ONLY REMEDY PROVIDED BY TRIKKE TECH FOR ITS ELECTRIC VEHICLES. NO OTHER PARTY HAS EXPRESS OR IMPLIED AUTHORITY TO CHANGE THIS WARRANTY IN ANY MANNER. TRIKKE TECH DISCLAIMS ANY LIABILITY FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES.

COMMERCIAL WARRANTY APPLIES "FOR COMMERCIAL USE"

Extended Commercial Warranty Available for additional \$600. Contact us for details.

To: Shawn Schwertfeger
Subject: Camera Budget Info

Shawn,

In looking at my latest proposal from Bearcom for cameras at the new Highlands Sports Complex, it looks like (and I questimated) installation charges, **around \$ 4,750 per camera.**

As part of my budget, I am proposing updating the access points for the cameras on the 2 towers North Park and the Wheeling Tower. This would allow for additional cameras to be added.

Subject: 2019-2020 Taser Budget Request with attached Taser Quote
Attachments: Wheeling Police Dept. - WV - (10) X2s.pdf

Chief,

Attached is the proposed 2019-2020 Taser Budget Request and the quote from Taser if needed. We spoke in your office on Friday concerning this need and the need for Taser X2 devices immediately before this budget as well. I did separate that immediate need from this budget request. See additional email and attached quote. As always, let me know if you have any questions or perhaps a sit down meeting would be helpful.

Subject: Immediate Taser needs
Attachments: Wheeling Police Dept. - WV - X2s (5).pdf

Chief,

There is an immediate need for 5 Taser X2 devices. That cost is \$9,976.00 and I have attached a quote from Axon Enterprise. We have 37 working Tasers and all 37 are issued to Officers and in service. Some of those working 37 Tasers have shown critical or major errors in the past that were remedied with firmware updates. Several updates since my last email on 10/30/18. That email contained two attachments, an After Training Report and a memo I named Taser Status Report, that may be helpful in understanding our needs. Let me know if you need those again. Cowan and Page are requesting to be certified and carry a Taser and I do not have one to issue them. Also, it is my understanding we have a few new Officers in the hiring process and it is expected they will want one as well. Included in this quote are four additional holsters and eight charging cables. These are not a major expense but inconvenient not to have and its justification is also included in the previous email from October.

Cpl. Wilson

Subject: Budget Request

Chief,

Per your request, here is some budget line items I would like to add to the WPD budget:

\$2,500 for annual report, printing and other digital design work (including new forms).

\$1,000 for annual public events (National Night Out, Law Enforcement Memorial).

\$300 Online Advertising for Police Officer employment/hiring.
